

Merchant Boost provides the insights to help you avoid financial losses, optimize business processes, and ensure compliance.

DECISION BOOST

RISK SOLUTIONS

Decision Boost Risk Solutions contains thousands of data sets to provide companies with data analytics supporting compliance, customer acquisition, fraud detection, credit risk, payment instrument validation, identity verification, risk decisioning and workflow optimization.

INNOVATIVE SOLUTIONS TO SERVE A WIDE RANGE OF INDUSTRIES

PRE BOOST™

Instantly analyze a combination of identity, fraud, compliance, and payment instrument data sources to generate a highly predictive verification of application information.

VERI BOOST™

Monitor your customers banking behavior to establish insight to thin file, limited history relationships, and reduce cost associated with returned items and collections.

RISK BOOST™

With thousands of sources we link data into one interface and provide critical intelligence for criminal, civil, sanctions, money laundering, and more. Analyze patterns and behaviors with predictive and analytical software to reveal complex relationships.

BANK BOOST™

Validate bank account information to reduce errors and verify legitimacy. Proprietary analytics identify financial standing and forecast ability to pay.

CREDIT BOOST™

Leverage multiple, proprietary consumer databases to provide unparalleled insights on consumers not covered by traditional credit information sources.

SOCIAL BOOST™

Unlock the value contained inside social and unstructured data so you can personalize your business processes. Reduce fraud and increase identity verification effectively where others have traditionally struggled, such as Millennials, thin files, and new to country.

Our Fair Credit Report Act (FCRA) regulated services and alternative data empower businesses to manage risk, protect against fraud, reduce overall costs associated with erroneous information, and increase overall revenue.

ABOUT OUR BUSINESS AND RISK MANAGEMENT KNOWLEDGE

Merchant Boost is an integrated risk management and financial technology firm enhancing data insights, speeding end-user activations, and improving payment processes. Combining cutting-edge technology, unique data and advanced data analytics, our solutions solve evolving requirements while assuring the highest standards of compliance and privacy. Merchant Boost provides the critical information to help customers across industry assess, predict, and manage risk.
